Mission

Maximize opportunities for small business participation in NAVFAC Pacific contracts, expand our industrial base, and stimulate competition.

Vision

We strive to remain an integral player and valued advisor to the workforce developing and implementing acquisition strategies supporting the Command's lines of effort, while effectively advocating for use of small businesses in our procurements.

How We Help You

- We are your advocacy office
 - Provide your capabilities statements to the appropriate requirements office
- Help you understand NAVFAC Pacific and if/how your capabilities align with our mission needs
- Assist you in locating other DoD Agencies to market your services
 - If your capabilities do not align with NAVFAC we can provide contact information for other DoD Contracting Offices in your area

How We Help You Continued

- The most important thing we do for you is to ensure ALL acquisitions consider small business participation as prime or subcontractors (behind the scenes)
